RECORDS: DEALERS AND EXHIBITORS.

The inventory records of the facility have not been kept up to date by adding the dates of animals sold. There were approximately 142 adults at the facility which were on the inventory, however there were an additional 77 animals on the inventory that have been sold that have not had the dates entered on the records. There are 6 Disposition forms that have duplicate sales of the same puppies to different pet stores, these records were not filled out correctly.

It is important that all records of inventory, acquisition, disposition and births are kept up to date and accurate for proper traceability and management of the regulated animals.

The licensee must update the inventory to include all of the dates of the animals that are no longer at the facility. All puppy records and disposition forms must be complete and accurate with the proper ID numbers and buyer information.

To be corrected by: December 30, 2017

Inspection and exit interview conducted with licensee. The exit interview was conducted by phone on December 6, 2017.
